Directions for use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. To be used in governmental mosquito control programs and by professional pest control operators.

This product is for control of mosquito larvae in swamps, floodwater areas, and other areas where mosquitoes breed. It should be applied at normal uniform rates of 3 gal./acre or less. Under special circumstances, such as extremely dense vegetation or water of high organic content, rates to a maximum of 5 gal./acre may be used. Petroleum oils may produce an unsightly appearance and should not be used when this condition is objectionable. Avoid application to surfaces when damage may occur. Use particular care to avoid damage when spraying over areas containing fish or wildlife.

STORAGE AND DISPOSAL

Do not use, store, pour or spill near flames or excessive heat. If drum is leaking, move drum to stop the leak. Absorb spilled materials with sand, clay or vermiculite and sweep up.
Prohibitions:
 Do not contaminate water, food, or feed by storage or disposal.
Pesticide Disposal:
 Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
Container Disposal:
 Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
